Sandeep Panchal of Rabatex Group and Luca Giovanelli of Alexander & Giovanelli Group shaking hands

Rabatex Industries Pvt Ltd is one of India's most prominent textile machinery manufacturer established in 1962 with the vision and mission to develop cutting edge technology in the sector. Through its passionate R&D team, the company has stood firm on its goals, with success in 28 countries across the globe.

Rabatex is on a growth streak and recently, strengthened its capacities with full technology from Alexander & Giovanelli Group, an Italian textile machinery systems provider. The company is known for its leadership in developing and producing equipment with quality materials from Europe. With a long tradition, they have grown in this industry in a seamlessly progressive way.

The real strength of this group is the centenary family's experience in this sector and their commitment, dedication, respect and care for details that make their work unique. This is evident in the design and installation of advanced material handling and storage equipment. With their advanced and cutting-edge technology, Rabatex aims to produce state-of-the-art weaving transp

This joint venture agreement of Rabatex with the Alexander & Giovanelli Group will bring manufacturing and sales of advanced, electric operated, handling equipment to the Indian Group currently has an extensive range of electric trolleys for weaving room, which it will produce in Indian grounds instead of exporting them from Italy. Throughout the production, quality standards of the Group will be maintained. Luca Giovanelli, Director at Alexander & Giovanelli Group said, “The main reason for tying up with Rabatex is to use their world-class manufacturing facilities. It will reduce our production costs and we will be able to offer products with the most competitive prices in the world market. The supply from India will surely shorten the delivery time to supply to other countries as well. We hope to have progressive association and partnership with the Rabatex Group.”

This joint venture will also complement Rabatex in offering a complete range of machinery for the textile industry, including the mechanical trolleys and electric operated trolleys. Rabatex is well established in the Indian and global market with more than 5000 trolleys working successfully in various textile mills. With the industry moving towards automated technologies, Rabatex focuses on producing the electric operated trolleys. And, due to increased capacities with this tie-up, their market share is all set to increase in India and 28 other countries as well.

Venture

Additionally, the company's customers will have several advantages. According to Sanjiv Rabatex Group: "Rabatex produces mechanical trolleys but is looking forward to catering automated equipment. This may ease the functioning of any unit with a lesser operating department, by enhancing productivity and reducing downtime. Also, the electrical trolleys have several safety features, so the chances of accidents will be minimised".

Luca Giovanelli also wants to explore a new concept of renting trolleys to mills. The company plans to start such a service. It plans to rent the trolleys to the mills and provide the service for these trolleys. This will ensure that the trolleys are always maintained as per the strict standards and will also be cost-effective for the mills.
