Donear Industries

"Their service team is also prompt and technically sound." – Rajendra Agarwal MD, Donear Industries Ltd

Mr. Rajendra Agarwal, Managing Director, Donear Industries Limited says : "Donear is associated with the Rabatex since the inception of our Surat Plant. It is been such a wonderful association, since more than a decade. We have installed many of Rabatex's Sectional Warming Machines running successfully at our Surat manufacturing unit and found working of these machines very satisfactory for cotton as well as synthetics. At our OCM Amritsar unit also, we have Rabatex machine which is running worsted yarn.

" Rabatex has been successful in being the leader in the industry even in this era of heavy competition. Rabatex is able to sustain its reputation by continuously providing improved technology and better quality products". Speaking about customer feedback the customer said, "Rabatex's policy of taking customer reviews and makes it as one of the bases for improving the technology has worked tremendously in its favour". Rabatex ensures that it fulfils customer needs by incorporating the changes and upgrading the machines in accordance with the demands of the customers along with having a fully-functional research and development team. Rabatex has provided a strong backbone on the technological front in providing quality products. On our experience , working with Rabatex, the customer said, "Collaborating with Rabatex has been one of the best decisions of the company".

I wish all the best to Rabatex Industries for all their future endeavors and continued success in the years to come."

Shahi Export

Mr. Jayrag Engal, Shahi Export - Shomoga

Shahi was established in 1974 by Mrs. Sarla Ahuja, who began her journey as a sewing machine operator in a factory. From its humble origins, the family-owned company has grown to become India's largest apparel manufacturer and exporter. We now operate 65 state-of-the-art manufacturing facilities across 9 Indian states with a diverse workforce of over 100,000 people. Our vertically integrated operations, diversified product range, and a strong commitment to ethical operations and environmental sustainability have established Shahi as one of the most

preferred garment manufacturers in the world.

"We have been associated with RABATEX for the last 5 years. Their commitments and service levels are extremely good. For our new project in Shimoga, we had taken one Automatic Sample Warping Machine with 16 feeders / Single End Sizing Machines / Material Handling Equipments / Ultra Sonic Reed Cleaning Machines from Rabatex Group. Performance is excellent and equal to any high end model from Japan or Europe. In recognition of that, we have taken 2nd machine also recently from them. We are extremely happy with their machines performance. We congratulate RABATEX to bring many more such machines and technologies at competitive price in future too"

Stating the reason for choosing Rabatex the customer said, "It was chosen as the provider for the company after thorough market research. When selecting a machine every company looks into the technology, user-friendliness and cost-effectiveness of the machinery. Rabatex's machines are a one-stop solution for all the needs of the customers". Customers have been lucky enough to have found a trustworthy partner which keeps the customer as a priority as always delivers whatever it says. It is not easy to make such a positive reputation all over the market. Rabatex has not only successfully created it but also been able to maintain its reputation. Rabatex has been a leader in the market and will continue to remain so if it works with the same zeal that it works right now. The machines are technologically advanced but the machines are made simpler to use by the simple design used to create the machines. Fully proficient staffs with the aim to make the company grow have been a boon to Rabatex.

Sangam India

Mr Shri Niwas Modani - MD & CEO, Sangam India Ltd., Bhilwara

Sangam Group's association started with Rabatex in 1992, we have good experience with Rabatex Products in last 26 year of associations. We also have been able to save valuable foreign exchange by buying from an Indian company and thereby promote the Make-in-India concept. Rabatex machines have provided us the utmost satisfaction.

Rabatex's influence on the Indian as well as the international markets has been prominent from the very beginning. Rabatex is considered as the leading manufacturer of warping machines which has been instrumental in giving the textile industry of India the needed boost. One of the major factors affecting a company's success is customer satisfaction which in turn is dependent majorly on the after-sales services. Rabatex has successfully identified the importance of optimal usage of human resource.

The company has over the years developed a strong network of employees which has handled the after-sales services extremely well. Rabatex has strategically hired technicians who are well-trained, and cooperative. The customer speaking about this journey said, Apart from the highly developed machines, the entire team, management as well as the leadership makes the experience of working with the company even more pleasant. The support provided by the Rabatex team has been encouraging for the customer. The team is always available and provides immediate service whenever a support is required. The service provided by the team is cost-effective, customer-friendly, and prompt. The customer looks forward to this partnership with Rabatex for many more years.

We have observed in our experience in working with Rabatex that they offer very good quality of machines which means a longer working life. Secondly their technology is also up-to-date, which also means that we do not need to continuously spend on updating our technologies. Both these features ensure savings in capital investments for our company.

Arvind PD Composite

I am confident about Rabatex Team that they will continue to innovate and excel in the years to come. - Mr. Suresh Bhat - Business Head, Arvind PD Composite - Ahmedabad

Arvind Group Association with Rabatex is since 1992, starting from procurement of Direct Warper for Denim and Material handling solution as well as various customized development products. Speaking about the experience of working with Rabatex, Mr. Suresh Bhatt stated that it is always pleasure to work with Rabatex in terms of product performance and commitment to match required expectation of application requirements.

Our Technical Textile Plant at Arvind PD we have installed 4 Nos. of Creel for Glass Fiber, 1 Creel for Multi Axial Machine, 1 Creel for Biaxial Machine and Various measuring tools and at-

tachment for our Imported Machines . We appreciate ability of technical team of Rabatex for understanding our need and provide us solution on time for equipments supplied so far . Indeed we are fully satisfied with the machines we have bought from Rabatex.

The company's experience of working with Rabatex has been incredible. On complimenting Rabatex the client said, "Rabatex has always put its best foot forward in all the projects that it undertook for the company in terms of highly competitive in terms of the technology used as well as the cost provided". From the technology engaged to the quality of parts used the machines are up to date and affordable. Rabatex is known to look after its client's need and always ensures that the client is smiling whenever working with them. It always delivers whatever is promised. The after-sales service is looked after by an excellent team of trained professionals. These employees have over the years built a relationship with the client and have always safeguarded the client's interest. We have found that the Rabatex team is always ready to take up challenges to design and offer customized solutions which meet our requirements within specified time limit .

Universal Textile Mill

Wishing them good luck with their future developments and expansions. - Vikram Jaipuria – Director, Universal Textile Mill - Bangalore

Our association with Rabatex group started since 2001 when we bought our 1st Sectional warping machine and followed by 2 more machines as we were very happy with the overall performance and service of the machine.

Describing the journey with Rabatex the customer said, "It has been favoured by the customers since the beginning. The journey so far has been prodigious. It has reaped benefits for both companies. The cooperation provided by Rabatex's staff member has provided complete support for the customer company to flourish". The machines are extremely suitable for various fabrics such

as cotton and denim. Rabatex caters to a large profile of fabrics making the customer comfortable to

think about expansion in the profile of their products without incurring extra costs due to the purchase of another machine. Rabatex is also a very environmentally-conscious company. The machines are designed in such a manner that they are able to produce more and more by using less power. Another feature of the service provided by Rabatex is the team of hard-working, trustworthy, and dedicated professionals who are trained to satisfy the customers' after-sales-service needs. Unfolding Rabatex's market captivity, "Rabatex has a strong presence in the market due to its dedication to improving the technology. Customers using Rabatex machines have been benefitting from this as every customer prefers to have the best quality textiles which are produced by using these machines". It has always been a pleasure working with Rabatex and would definitely recommend it to other companies as well.

Shahlon Silk Industries

We are happy to be a part of the Rabatex family . - Dipan Shah - Director Shahlon Silk Industries Ltd – Surat (Fairdeal Group)

Since May 2003 we have been associated with Rabatex Group and have installed 3 Nos of Advanced Sectional Warper and Creel .

Being satisfied with the company's progress the customer said, "Rabatex's dedication towards their customers has given them a chance to establish themselves in majority Indian markets as well as international markets. Having used a lot of machines of other companies earlier, the experience with Rabatex has by far been the best". The company's commitment towards improving technology as well upgrade the existing machines since its inception has given it an upper hand to establish its name in the textile industry. Commitment to consistency and quality has made Rabatex one of the most trusted brands of warping machines in the industry. Rabatex along with improved quality makes sure that it caters to all the needs of its customer. They began their journey with slow sectional warping machines and now provide various kinds of warping machines, from single end sample warping machines to specialty warping creels with electronic controls. The company also provides with long-lasting spare parts which have been made possible due to the staff of Rabatex who form the backbone of the reputation of the company. Rabatex has time and again proved its worth and the leadership of the company has been able to sustain the goodwill of the company. The company will continue to be a major provider in the textile industry. ♦
