We do confirm our satisfaction for Operation of supplied all machines in terms of production / performance / after sale service / remote service . We appreciate Rabatex Team to providing periodic training as and when required by our team . They have excellent set up for remote diagnosis and trouble shooting for solving our any query which we have addressed so far with shortest possible time .

We have produced more than 2300 sample beams on Rabatex Sample Warping Machines and all have given satisfactory performance on weaving machines .

We appreciate Team Rabatex for keeping continuous development in software and making their customer happy by updating periodically .

We wish Rabatex good luck for their further development .
